Shift Awal/Akhir : B/H

1. Bagaimana cara memasukan data ke table, berikan contoh! Untuk memasukan data kita bisa menggunakan perintah:

```
insert into "nama_tabel" Values  
(‘isi field 1’, ‘isi field 2’, ..... ‘isi field n’),  
(‘isi field 1’, ‘isi field 2’, ..... ‘isi field n’),  
(‘isi field 1’, ‘isi field 2’, ..... ‘isi field n’);
```

Atau:

```
Insert into "nama_tabel" (nama_field_1, nama_field_2, ..... nama field_n) values  
(‘isi_field_1’, ‘isi_field_2’, ..... ‘isi_field_n’);
```

Contoh :

```
MariaDB [penjualan_barang]> insert barang values  
-> ('1092091092', 'sandal', 25000, 20);  
Query OK, 1 row affected (0.006 sec)
```

```
MariaDB [penjualan_barang]> insert barang values  
-> ('1092091092', 'sandal', 25000, 20);  
Query OK, 1 row affected (0.006 sec)
```

```
MariaDB [penjualan_barang]> insert into barang (id_barang,nama_barang,harga,stok)  
values  
(‘12102025’,‘meja’,45000,60);  
Query OK, 1 row affected (0.003 sec)
```

```
MariaDB [penjualan_barang]> insert into barang (id_barang, nama_barang, harga, stok) values  
-> ('12102025', 'meja', 45000, 60);  
Query OK, 1 row affected (0.003 sec)
```

Hasil:

```
MariaDB [penjualan_barang]> select * from barang;  
+-----+-----+-----+-----+  
| id_barang | nama_barang | harga | stok |  
+-----+-----+-----+-----+  
| 1092091092 | sandal      | 25000 | 20   |  
| 12102025   | meja       | 45000 | 60   |  
+-----+-----+-----+-----+  
2 rows in set (0.000 sec)
```

2. Bagaimana cara menghapus data dari table, berikan contoh! Untuk menghapus data dari table kitab isa menggunakan perintah:

Delete from “nama” where “kolom yang dituju”=”nilai dalam kolom”

Contoh:

MariaDB [penjualan_barang]> delete from barang where id_barang=12102025;
Query OK, 1 row affected (0.006 sec)

```
BEFORE
MariaDB [penjualan_barang]> select * from barang;
+-----+-----+-----+-----+
| id_barang | nama_barang | harga | stok |
+-----+-----+-----+-----+
| 1092091092 | sandal      | 25000 | 20   |
| 12102025   | meja        | 45000 | 60   |
+-----+-----+-----+-----+
2 rows in set (0.000 sec)

MariaDB [penjualan_barang]> delete from barang where id_barang=12102025;
Query OK, 1 row affected (0.006 sec)

AFTER
MariaDB [penjualan_barang]> select * from barang;
+-----+-----+-----+-----+
| id_barang | nama_barang | harga | stok |
+-----+-----+-----+-----+
| 1092091092 | sandal      | 25000 | 20   |
+-----+-----+-----+-----+
1 row in set (0.001 sec)

MariaDB [penjualan_barang]> |
```
